Dear Steven

I would like to thank you very much for your help in getting my netbook in working order. I have to say, dropping it on concrete is not the smartest move I have ever made, but the speed with which you took care of this for me and the quality of your work made the whole process stress free afterwards.

My husband works within IT and even he could hardly tell that anything had happened to it, you made the whole thing look as good as new.

I would not hesitate to recommend your services to friends and colleagues.

Thank you so much again.

Lynsey Levy
